

Experience the beauty and tranquility of Homer, Alaska!

About Homer

Homer is a small city (population: 5,300) nestled between the peaks of the Kenai Mountains and beautiful Kachemak Bay. Homer is an artistic community, but may be better known as the halibut fishing capital of the world.

Located about 45 minutes by air or four hours by car south of Anchorage, Homer is one of the premier tourist destinations in Alaska. The city offers many outdoor activities for the active lifestyle: fishing, hiking, kayaking, camping, clam-digging and boating.

About SVT Health & Wellness

SVT Health & Wellness operates as a community health center and tribal clinic. The SVT Health Wing, established in 2001, offers primary and preventative health care. The SVT Wellness Wing, which opened in January 2012, focuses on the well-being of the whole person. Both departments are situated on the same campus and integrate traditional health care with complementary medicine. As a federally recognized Community Health Center, SVT Health & Wellness offers medical, integrated behavioral health and dental services at a significantly reduced rate to qualifying patients based on family size and income. SVT Health & Wellness accepts private health insurance as well as Medicated, Medicare and Denali Kid Care.

About Seldovia Village Tribe

Seldovia Village Tribe, IRA, offers a competitive salary and generous benefit package. Loan repayment options may be available through the Indian Health Service (IHS), the National Health Service Corps (NHSC), or Alaska's Supporting Health Care Access through Loan Repayment Program (SHARP). Seldovia Village Tribe promotes wellness in the southern Kenai Peninsula through health care and social services, economic development and education.

The mission of SVT Health & Wellness is to improve the health of all people in our communities by providing quality, respectful, caring and culturally-appropriate primary, holistic and preventative care.
